**The scripts below are for KIDS only.**

**OPTION 1**

This team of amphibians can always be counted on to save the day. But what happens when THEY need saving? Lucky for them, rescue team member, Newton, shows up just in time. But can he figure out a solution to their problem before it's too late?

1. NEWT-ON

(Panicked - sotto) What do I do?  
What do I do? Come on Newt-on,  
THINK! (gasp) I got it! Hang on  
Sally-mander and Axel-otle! I'll  
use the winch from the Amphibus to  
pull you out! With amphibian might,  
we do what's RIGHT! (giggle)

**OPTION 2**

Fireweed may be the tiniest of the mermaids but she has taken the lead on this rescue mission. She musters all the energy she can in hopes that, this time, her spell will finally work.

2. FIREWEED

Hurry! Without the power of the  
salinate crystal, all of Seatide  
Hollow will be frozen forever!  
(starts quiet but builds to the  
end) Mermagic Might! Seahorse &  
Sprite! Powers unite...let glow  
your LIGHT!
